

Hands-on Science Training

March 24 - 25, 2018

Debert Hospitality Centre, Debert NS

Are you interested in learning about how to spark science and cultivate curiosity in your members?

Learn how to introduce the Steps to Inquiry, improve your science knowledge and experimentation skills, and learn how to highlight the Science, Technology, Engineering, and Math that already exists in many 4-H projects. Upon completion of the training, you will be a Science Champion, and will work to promote and champion science in your 4-H club and greater community. Facilitated by Melina Found, 4-H Canada Learning Specialist.

What to Expect: (a more detailed schedule will be sent to participants prior to the event.)

Day 1: Welcome activity and introduction to the Hands-on model. Get Messy! Hands-on experiments throughout the day to allow participants to experience and understand concepts. Steps to inquiry - the easy method to incorporating scientific inquiry into any activity.

Day 2: Review to cement skills, understanding and concepts. Provide easy, accessible takeaways that allow participants to incorporate what they've learned. Addressing questions.

**Register by
March 1, 2018**

Fee includes meals and accommodations for Fri and Sat nights

\$125
